

## Environment– recycle & re-use

### Policy

Proactive Learning Ltd commits to comply with environmental law and to constantly review its working practices to reduce our impact on the environment.

### Practice – WEEE (Waste Electrical & Electronic Equipment)

- Removal - if required by the customer, on the day of new installation(s), we remove old audio- visual equipment from their site for recycling/disposal.
- Certification - the customer will be provided with a digital WEEE certificate.

Proactive has the following registrations:

Registration/Certification Type	Registration Number
Hazardous Waste Carriers Licence (Upper Tier)	CBDU182555
Exemption from S2- Storage of Waste in a Secure Place (Non-agricultural Waste only)	WEX369748

Proactive will aim to recycle as much WEEE as possible. Any interactive screens that cannot be recycled by us will be passed on to our WEEE recycling and disposal company, Reconomy, who will reuse where possible.

**Reconomy** is a fully approved and nationwide waste management company that provides a comprehensive, tech-enabled service to a wide variety of sectors. Reconomy's WEEE waste recycling and disposal services help us not only recycle WEEE waste but identify innovative

ways to prevent the amount generated in the first place. Find out more by visiting their website:
